Subject: Leave No Trace MASTERS CLASS

Folks, there will be a USFS / Leave No Trace Center for Outdoor Ethics Sponsored Leave No Trace Masters Class in Southern Illinois in April of 2011. This will be a great opportunity for the Eastern States who have only one or no Master Educators (Stock use) to participate. It does not look promising at this point that there will be a BCHA class in Montana this year due to budgetary restraints. The class as usual, will be limited to 12 students so all of your BCH Chapters need to get this on your agendas for discussion and possible student registration, and grant opportunities thru the Leave No Trace Center for Outdoor Ethics . Again, this is not a BCHA sponsored class nor will there be a reduced tuition, but, if you are a member of BCHA, there may be a grant opportunity thru BCHA'S Education Foundation. Any interested persons should contact : Bob Hoverson (rhoverson@fs.fed.us) for actual tuition fees and proposed dates of the class. Happy Thanksgiving to all. Thanks for spreading the word V/R Bob Wagner
